

TABLEAU:

Tableau is greatly used because data can be analysed very quickly with it. Also, visualizations are generated as dashboards and worksheets. Tableau allows one to create dashboards that provide actionable insights and drives the business forward. Tableau products always operate in virtualized environments when they are configured with the proper underlying operating system and hardware. Tableau is used to explore data with limitless visual analytics.

Tableau is a powerful and fastest growing data visualization tool used in the Business Intelligence Industry. It helps in simplifying raw data into the very easily understandable format.

Data analysis is very fast with Tableau and the visualizations created are in the form of dashboards and worksheets. The data that is created using Tableau can be understood by professional at any level in an organization. It even allows a non-technical user to create a customized dashboard.

Products of Tableau:

- Tableau Desktop (Both professional and personal editions)
- Tableau Server
- Tableau Online
- Tableau Prep Builder
- Tableau Visible
- Tableau Public (free to use)
- Tableau Reader (free to use)

Uses of Tableau:

- Usage of Tableau software are listed below:
- Tableau software is used to translate queries into visualization.
- It is also used for managing metadata.
- Tableau software imports data of all sizes and ranges.
- For a non-technical user, Tableau is a life saver as it offers the facility to create 'no-code' data queries.

Course Content:

Introduction and Overview:

- Why Scene? Why Perception?
- Level Setting – Phrasing
- Getting Began – making some amazing representations rapidly
- The Scene Product offering
- Things you should think about Scene
- Getting Began
- Connecting to Information and prologue to information source ideas
- Working with information records versus database servers
- Understanding the Scene workspace

- Dimensions and Measures
- Using Show Me!
- Tour of Racks (How retires and checks work)
- Building Fundamental Perspectives
- Help Menu and Tests
- Saving and Sharing your work
- Concepts and Choices when Associating with Information
- Joining different tables
- Data Mixing
- Copy and Glue
- Data Concentrates
- Custom SQL
- Publishing and Re-utilizing Information Associations
- Understand how to manage information changes in your information source, for example, field expansion, erasure or name change
- Re-utilizing and sharing information associations – the idea of meta information
- Working with numerous associations in a similar exercise manual
- Analysis

- Creating Perspectives Imprints Size and Straightforwardness
- Highlighting Working with Dates Date accumulations and date parts
- Discrete versus Nonstop Double Hub/Various Estimates Combo Graphs with various imprint types Geographic Guide
- Page Trails
- Heat Guide
- Density Outline
- Scatter Plots
- Pie Outlines and Bar Diagrams
- Small Products Working with total versus disaggregate information
- Analysing
- Sorting and Gathering
- Aliases
- Filtering and Fast Channels
- Cross-Tabs (Rotate Tables)
- Totals and Subtotals
- Drilling and Drill Through
- Aggregation and Disaggregation

- Percent of Aggregate
- Working with Insights and Pattern lines
- Getting Began with Determined Fields
- Working with String Capacities
- Basic Number juggling Computations
- Date Math
- Working with Sums
- Custom Accumulations
- Logic Proclamations
- Formatting
- Options in Organizing your Representations
- Working with Marks and Comments
- Effective Utilization of Titles and Subtitles
- Introduction to Visual Prescribed procedures
- Building Intelligent Dashboards
- Combining various representations into a dashboard
- Making your worksheet intelligent by utilizing activities and channels
- An Prologue to Best Practices in Representation
- Sharing Exercise manuals

- Publish to Peruse
- Packaged Exercise manuals
- Publish to Office
- Publish to PDF
- Publish to Scene Server and Sharing over the Internet

Our learning methods include:

- Comprehensive course selection of Instructor-Led Training
- Logistical convenience and interactive classroom experience of Online Training
- Flexible pacing and instructor-guided support of Mentored Learning
- Self-paced convenience of Online ANYTIME

In addition:

- Interview preparation with mock interview drills
- Effective resume building
- Process of applying jobs at the right places
